

The Most Important Issues Americans Think They Know Enough About. Edition III

By M D Conrad Miller, Conrad Miller M D

CREST OF THE WAVE, United States, 2008. Paperback. Book Condition: New. 229 x 145 mm. Language: English . Brand New Book ***** Print on Demand *****.Do You Know? T. Boone Pickens is investing \$10 billion in the biggest wind farm in the world, in Texas? Why not put that money into the nuclear power industry, which is lobbying for UNLIMITED corporate welfare government subsidies that are claimed to be necessary to build ANY new nuclear plants none of which could be online until 2015 at the earliest? The DNA from genetically modified organisms (GMO s), including viruses and other species normally alien to our bodies, has already entered our vital organs, and the bacteria in our intestines, though this was not supposed to happen as a result of the gene-alteration of our foods? One controlled study found that rats fed GMO potatoes developed smaller brains, testicles and livers, as compared to rats fed the unaltered parent line of the very same potatoes. Beware, half USA non-organic sugar may be GMO by 2008 if not stopped by labeling or angry consumers. Italy wants to dump 20,000 tons of its nuclear waste into the USA, with the help of the EnergySolutions corporation?...

Reviews

Extensive information for book fans. It is written in basic words and never hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Otis Wisoky**

This publication is great. It is full of wisdom and knowledge You will not really feel monotony at any time of the time (that's what catalogs are for relating to when you ask me).
